May 1999*

## Washington HFIA Meeting

The next HF Industry Association (HFIA) meeting will be held during the AFCEA GovTechNet Exhibition in Washington. The meeting will be held on Tuesday, June 15 from 8:00 am to 4.30 pm at the following location:

Conference Room 16,  
Renaissance Washington DC Hotel,  
999 9<sup>th</sup> Street NW,  
Washington D.C.

The Renaissance Hotel is conveniently located directly opposite the main entrance to the Washington Convention Center, where the GovTechNet exhibition will be held. This year many of the AFCEA meetings will be held in the Renaissance Hotel because the exhibition has been expanded to also include the Federal Computer Show and the SIGCAT '99 Conference.

We are putting together an interesting agenda, that includes presentations and discussions on key developments in the HF community. The HFIA meeting will provide useful information to both industry and government representatives. The topics include;

- Information on the latest MIL-STDs and NATO STANAGs
- Reports on HF projects
- New developments in the HF industry
- Reports on testing
- Guidelines on applying new HF standards

If you have a presentation that you would like to give please send me a short email so that we can work it into the agenda.

## Further Information

For further information on the HFIA or the HFIA meeting please contact:
